COMMUNITY STRENGTHENING PILLARS

For our Association to thrive we need to attract, engage and retain people from all backgrounds, of all abilities with a broad range of experiences.

This Committee is a representative voice that will act as ambassadors for improvement. We will seek out best practice and external expertise wherever relevant.

Chaired by a member of the Board of Management, the CSC will comprise members from our netball and wider community, who will work collaboratively to improve diversity and inclusion at FDNA

The CSC will establish each year's priorities and ensure the work aligns with the Association's Strategic Plan. The Committee is accountable to the Board of Management.
